Need to hone your basic keyboard and mouse skills? No problem. Want help creating, saving and managing word processing files? Can do. Maybe you would like to understand more about media storage or sending attachments with your emails or other fun and easy ways to use your computer or the Internet to keep in touch with family, friends and those special grandchildren. We're also happy to show you how to safely surf the Web for useful, interesting or just plain fun sites.

In a few, simple, hands-on lessons, we can teach you all of these and more.

You Can Learn Best *In Your Own Home!*
